Objective

Seeking full-time employment utilizing my computer hardware and software skills.

Education

BS: Computer Engineering; graduated May 2016

University of Wyoming, Laramie, WY

Senior Design Project (Spring 2016): Wi-Fi Sound System

- This project utilizes a local network and Wi-Fi to transmit streaming audio from a mobile device running Android OS to a microcontroller connected to a set of speakers.

Experience

06/15 – Present

HollyFrontier Corp

Cheyenne, WY

IT/Software Engineer Intern

- Telecommute during the school year, work unsupervised, and consistently meet work deadlines
- Designed, implemented, and maintain a database driven web application
- Perform technical support for employees
- Work successfully alone and with a team
- Work 40 hours a week during winter and summer breaks and average 15 hours a week during the academic year while being a full-time college student

03/14 – 05/15

Ace Hardware

Laramie, WY

Floor Manager

- Promoted to Floor Manager from Cashier in less than five months
- Directed 4-12 employees, depending upon the shift, with daily tasks and services
- Assisted guests through problem solving and providing solutions to their home projects; used my technical knowledge and past experience

Summer 2013

Black Thunder Coal Mine; Arch Coal, Inc.

Wright, WY

Summer 2012

Electrical Engineering Intern

- Maintained, repaired, and upgraded electrical systems of mining equipment
- Designed and implemented solar powered bus stops
